Games: Colors run off every game played so far — Weeks 1–4 — and recalculate every build.

The Scout is the engine built to find this team's needs: every hole and thin spot, week by week through the playoffs, ranked by what each one costs in wins, with what is needed, when, and who available could fill it. Everything here is a recommendation to talk through. A move becomes an action only once it is decided, and then it goes to the Call Sheet.
