RotoWire news: newest item 21.6 hr old — feed may be stale; only 5 items across all addresses — thin

HOW TO READ IT

Three jobs per league: the roster's own men in the news (every grade), men COMING IN (free in that league with good news, an opening, or heavy Sleeper add-trending), and OPPONENT WATCH (this week's opponent's starters in the news).

The marker: dot and arcs, colour = the news — red needs action, gold watch, green good, grey gone quiet. The pill reads items on the newest news day · days since that day (0d = today). Grey after 2 quiet days, off after 7.

Numbers are this week, each labelled with its owner: YAHOO (Yahoo's projection), GOTHAM (the engine), SLEEPER (Sleeper's projection, priced in that league's scoring). "Weakest starter" is the lowest GOTHAM number among that league's starters at the same position.

An OPENING means the man ahead of him on his NFL team has bad or questionable news in the last three days — the value may move before any report says so.

Roundups and listicles that name dozens of players count as mentions, not news, and never light a marker. News window: since the feed began Oct 7 (14 days once it fills).

Free-agent status comes from Yahoo, read in Chrome; every COMING IN man was re-checked one by one with Yahoo's player search. "Waivers" means he clears on the date Yahoo shows.
