The Scout is the engine built to find this team's needs: every hole and thin spot, week by week through the playoffs, ranked by what each one costs in wins, with what is needed, when, and who available could fill it. Everything here is a recommendation to talk through. A move becomes an action only once it is decided, and then it goes to the Call Sheet.

If Ladd McConkey Sits — Questionable, starting at WR (~8.9 this week). The Scout's best lineup already starts someone else over him this week, so sitting him costs nothing.

Missing Pieces **A lead running back** - Braelon Allen drops to about 9 a game once Breece Hall is back; Etienne (IR, earliest Week 9) and Montgomery are the hope, neither confirmed · **A wide receiver for Week 10 on** - Germie Bernard's role shrinks when Michael Pittman returns; McConkey (claimed Oct 25) is the bet if he clears his concussion
